

GOVERNMENT OF DC DISPARITY STUDY BUSINESS SURVEYS

The Government of DC (the District) has commissioned **BBC-Pantera-Tiber** to conduct a *disparity study* to assess whether barriers exist for minority- or woman-owned businesses that make it more difficult for them to compete for District contracts. **You may be contacted and your insights are essential!**

As part of the study, BBC-Pantera-Tiber will conduct telephone and online surveys to collect information on businesses' characteristics. **Davis Research** will be conducting those surveys on behalf of the project team. **Surveys will begin in September 2021 and will continue through 2022.** If you are contacted, please participate in the survey to help ensure an accurate and comprehensive disparity study.

HOW WILL THE INFORMATION BE USED?

Information from the surveys will be used to estimate the **availability** of minority- and woman-owned businesses for District contracts and procurements.

WHO WILL BE CONTACTED?

Businesses that do work or provide services related to the types of construction, services, and goods that government agencies contract for may be contacted, even if they have never worked with government agencies in the past.
