- Zoning: RF-1
- Located beside East Potomac Golf Course
- RFP: May 2017

EAST POTOMAC POOL
WASHINGTON, DC

DPR (Department of Parks and Recreation) is currently working with Hughes Group Architects on finalizing the design for the East Potomac Competition Pool. DPR anticipates that the renovation to the pool house will entail the reconfiguration and upgrade of the existing locker rooms and administrative areas; construction of family changing rooms; creating an ADA compliant main entrance and site as well as retail space (i.e. storage space and vending machines.) The pool house should also have wireless internet capability. Creation of spectator seating and team aquatic benches are also anticipated, as is new perimeter fencing, site lighting, and other site improvements that attain a minimum of LEED Silver certification.

Additional improvements to the outdoor spaces include: bio-retention areas, landscaping and hardscaping upgrades, outdoor courtyard, site furnishings and other outdoor amenities.

Design is nearing completion and a General Contractor will be hired in May 2017.
