

Committees

WIC Committees

The committees established by the Council will enabled the WIC to become more vibrant and effective, and empowered members to take on greater leadership roles in the District's workforce system. Listed below are the permanent committees mandated by WIC Mayor's Order:

The Executive Committee

The Executive Committee acts on behalf of the WIC on all policy, performance management, fiscal and administrative issue related to the local workforce investment system.

The Youth Council

The Youth Council oversees the performance of WIA-funded programs for in-school and out-of-school youth. It is responsible for developing strategies to address the critical workforce challenges facing the City's youth population.

The Chair, together with the Executive Committee, may establish such Subcommittees as deemed necessary and appropriate to perform the functions of the WIC.
